Leprosy in New York.

NEW YORK, April [illegible].—[Special.]— [illegible]

Have you met with any traces of leprosy among the Chinese?

It is very difficult to detect. There have been two or three cases treated, but they secrete their sick. I am unaware of any way of finding them.

Dr. Sturgis, West Thirty-second street, said:

I cannot give an accurate guess at the number of lepers in the state or vicinity, but know there are too many. I can now call about eight or nine cases. About thirty cases have come under the observation of our society of this city within the last eight years. Not long since a leper, who escaped from the leper colony at Molokai, in the Sandwich Islands, made his way to Salem, Massachusetts. He was finally in the workhouse there. The authorities made efforts to get him into our charity hospital, but our commissioners had lepers enough. He died the other day.

The Charges of Heresy Against Rev. Newton.

NEW YORK, April 26.—[Special.]—When Rev. Heber Newton, rector of All Souls church (Anthon memorial) on West Forty-eighth street, delivered a series of sermons last winter on the wrong uses of the bible, a number of preachers of the Protestant Episcopal church criticised him severely. They accused him of teaching doctrines contrary to the laws of the Protestant Episcopal church and of violating the sacred canons. Several came out boldly and charged Newton with heresy. The vestry of All Souls church held a meeting to endorse Newton, and at a subsequent meeting of the congregation the action of the vestry was fully endorsed. Bishop Potter said the charges against Newton were apparently of a voluminous character. As he had not as yet examined carefully he did not think it proper at present to allow any part of the charges to be made public through him.

The "Herald" and Rev. Newton.

NEW YORK, April 26.—[Special.]—The *Herald* says of the Newton trial: Drs. Dix and Prof. Buell had little to say last evening. A copy of the sermon on the bible was put in, and the matter now rests with Potter to do one of two things: either to ignore the presentment or to designate twelve clergymen from whom Dr. Newton was to select five to act as his judges. If there should be a trial it will probably not be reached before the first of July. The trial would be conducted according to the rules of state courts.

Gould at the Bottom of the Affair.

NEW YORK, April 26.—[Special.]—The *Stockholder* says it has been persistently reported for several days past that the Panama canal company has secured sufficient Pacific Mail stock to enable it to demand representation in the company's directory. We are reliably informed that the story is without a shadow of foundation, and that, so far as its future policy has been decided upon, the canal company has no intention of controlling this steamship company. It is much more likely that, as reported some time ago, the stock is being bought by some one in the interest of Jay Gould, as will perhaps be shown at the coming meeting.

Care of the Wesson Horror.

NEW ORLEANS, April 26.—Steps will be taken to systematize the distribution of relief funds at Wesson. Articles are being constantly received and distributed by the committee. The most injured are in a destitute condition. The death is reported to-day of Mrs. Lampkins and Miss Mamie Shields, and six others are not expected to recover. The railroad and express company carry provisions and money for the sufferers free of charge. Physicians say that the wounds are very serious in most cases, and gangrene has set in in many cases. Those sent to other points are generally reported to be doing well.

Mormon Recruits.

NEW YORK, April 26.—[Special.]—Among the immigrants who arrived yesterday from Liverpool in the steamship Nevada was a party of 350 Mormons. Elder King, who had charge of the converts, said they were nearly all British and Scandinavians. There were 193 from Denmark, Norway and Sweden, and the remainder came from Great Britain. They were in families, principally, although there were a few single men and women. Nearly all have some means with which to begin life in Utah. They started for Utah this afternoon.

On the Track of a Fortune.

NEW YORK, April 26.—[Special.]—Nathan Albert, a tinware merchant of this city, disappeared from his home in Brooklyn in the fall of 1858, and notwithstanding the exertions of his wife and friends no trace of his whereabouts could be discovered. A few days ago she received information from San Francisco to the effect that a man believed to be the missing husband had died, leaving a fortune of nearly $1,000,000. Mrs. Albert has retained the services of counsel, and should the information be found correct, will endeavor to establish her claim to the property.

Shipment of the "Rocket."

CHICAGO, April 26.—A London cablegram received here announces the shipment of seventeen cases of exhibits, including the Rocket, George Stephenson's first locomotive, for display at the railway exhibition, which opens in this city May 24. In addition to the exposition building the management has constructed temporary buildings on Lake front, making a structure five blocks in length, taken altogether. Among the novelties will be an electrical railroad, the first one operated in this country.

A Step against Polygamy.

OMAHA, April 26.—[Special.]—Ex-Senator Paddock, member of the Utah commission, left for Salt Lake to-day to join the other members to commence work in taking the June registration for the election which takes place in August, at which time the legislature will be elected. An effort will be made to get up a clean registration to shut out polygamists. This is regarded as a most important step in the movement against polygamy.

Injunction Against Wells Fargo.

DENVER, April 26.—To-day Judge Yeoman, of the district court at Pueblo, granted a temporary injunction, restraining Wells Fargo's express company from interfering with the business of the Denver and Rio Grande express company, and appointed inspectors at Denver and Pueblo to examine express matter on arrival and forward as consigned. It also restrains the former from discriminating against the latter in the matter of rates.

The War on Polygamy.

OMAHA, April 26.—Ex-Senator Paddock of the Utah commission left to-day for Salt Lake to join the other members and prepare for work. An effort will be made to get up a clear registration to shut out polygamists. This is regarded as the most important step in the movement against polygamy.

A Valuable Discovery.

NEW YORK, April 26.—[Special.]—William Oldfield of Canada claims to have discovered a process of preserving all future crops from frost. If so he has solved the greatest problem known to fruit growers. He has planted 300 acres at Griffin, Ga.

CRIMINAL CALENDAR.

ARREST OF A NOTORIOUS COUNTERFEITER.

NEW YORK, April 26.—William Griffith, a notorious counterfeiter, has been arrested. Griffith was born in London, was educated at Eaton and studied counterfeiting in the bank of England. He came to this country in 1867 and studied lithography, and so well that in 1878 the country was flooded with spurious ten dollar notes. He travelled to Boston with a woman, where the pair were known as Lord and Lady Ashburton. In Virginia City he was sentenced to eight years imprisonment for swindling the state bank. This was in 1879, and September he was released, being thought dying. He came to this city, where a jeweler was swindled out of $1,600 by him.

HORRIBLE BRUTALITY.

JACKSONVILLE, Ill., April 26.—At Temple's mines, Bradford county, P. Blesser whipped his nephew till he was covered with blood and then tied the boy in the chimney, head downward, and roasted him till the flesh dropped. He then took the boy down and threw cold water on him.

EASTON, Mass., April 26.—Willie Margaret Mather's company was playing Romeo and Juliet to-night. Frederick Paulding, playing Romeo, ran a sword into the body of [illegible] Dalton, playing Tybalt, in the duel scene. It is not known at present how seriously Dalton is hurt. The doctor is doubtful of Dalton's recovery from the injury.

A Steamer in Jeopardy.

HAMBURG, April 26.—There is much anxiety here and in Bremen on account of the non-arrival of the Helsberg. It is stated that she had only three weeks provisions on board and is now over three weeks out. The reports that she had arrived at [illegible] are untrue, as she has been signalled idle abroad at sea.

Increased Demand for Farm Machinery in the Northwest.

RULES GOVERNING THE REBATE ON TOBACCO.

CALIFORNIA.

The Increased Demand for Farm Implements in the Northwest.

SAN FRANCISCO, April 26.—[Special.]—In conversation with parties engaged in the sale of agricultural implements it is learned that trade has increased greatly during the past year, and especially as regards trade with Oregon and Washington territory. The impetus which it has received is owing to the large immigration of practical farmers who have taken up small farms there and who are the principal purchasers, either directly with firms in this city or through agencies in the northwest. A representative of a large eastern house stated to an OREGONIAN correspondent that shipments to Oregon and the north generally had increased fully [illegible] per cent during the last ten months and that trade at the present time is unexampled. The demand was principally for farm wagons, plows and headers, which were forwarded by fast freight. If it were possible to carry on the business of supplying the wants of immigrants on easy installments he had no doubt the demand would severely tax the supply, but the great drawback to this would be the difficulty of finding proper security for final payment of the articles shipped by manufacturers of agricultural implements. During his stay in this city he had been informed that the business was assuming great proportions, and that the field was daily growing more important. This view of the situation is borne out by an inspection of cargoes going north, as all Portland steamers for the past six weeks have carried large quantities of farming implements, including threshers, plows, wagons, etc., consigned to firms in Portland.

Rules Governing the Payment of Rebate.

SAN FRANCISCO, April 26.—The commissioner of internal revenue at Washington has telegraphed the following instructions to Internal Revenue Collector Harrison: Rebate will be allowed on tax paid on imported cigars and tax paid on tobacco. Sellers may claim rebate as dealers. Inventories may be prepared and labels fixed before May 1; witnesses must count and examine the packages on that day and see that the inventories are correct. Serial numbers of snuff stamps may be admitted. Labels should have the name of the owner of the goods, whether they are in his own district or elsewhere. If a manufacturer is also a dealer, and has two claims, one as a manufacturer and the other as a dealer, they cannot be consolidated. If either claim is less than $10 it cannot be allowed. Where small stamps for five pounds or less are found on packages weighing ten pounds or more, the fact should be explained in the inventory. Instruction No. [illegible] or form No. 135, has been so modified as to require rebate labels upon each factory package of snuff and tobacco, only where the package exceeds one pound in weight. Where packages of one pound or less are inclosed in boxes or other cases a label must be affixed on each case.

Pacific Coast Signal Stations.

SAN FRANCISCO, April 26.—It is announced that after May 1 the weather reports will not be telegraphed to this city from the signal service stations on this coast. The appropriation is very low, and retrenchment has been ordered in all branches of the signal service throughout the country. In this connection the *Bulletin* says: "In view of the fact that during our summer months we may be said to have no changes in the weather, telegraphing was ordered dispensed with. The stations will be maintained as usual and observations will be taken regularly, but their results will be sent by mail to Washington and will be telegraphed to this city and thence to Washington as formerly. As far as California is concerned this change will not work any hardship, for any one may predict the winds and weather with almost absolute certainty during the summer, but from Portland north the weather during the summer is watched with considerable interest by ship owners, and they desire that service from Portland and Olympia be maintained. There is some talk of subscribing money for the payment of such telegraphic service, but whether the movement will be successful or not is doubtful."

Full Freight for Steamers.

[Special.]—The steamer Oregon, which sails for Portland to-morrow, carries full freight composed of a large quantity of farming implements and general merchandise. The State of California, which arrived this morning, will also have a full cargo, as there is enough on the dock at the present time to fill her to full capacity. Some heavy machinery apparently intended for iron works has arrived from the east.

Valencia Re-Arrested.

Frank Valencia, who shot and killed John J. McGreery at Fairfax, was again arrested yesterday on a bench warrant. The prisoner had been held without bail, but swore out a writ of habeas corpus last Monday and was released on $2,000 bonds. Yesterday the court, when he was re-arrested at San Rafael, fixed the bail at $40,000.

Improved Mail Service from New Orleans.

The mails from New Orleans have on their way to this city been taken via Mobile, Cairo and Kansas City, thereby losing two days time. It is expected that General Superintendent Thompson, who is going to New Orleans, will make arrangements for their direct transportation over the Sunset route. This will shorten the time two days.

Fare Reduced for the Knights.

[Special.]—The Central Pacific railroad has issued a circular containing a statement of reduced rates of fare from stations west of Ogden in favor of knights and their families visiting the triennial conclave. These tickets will be sold on July 15, and hold good until September 15.

Immigrants for California.

The immigration association has received letters from its agent at Council Bluffs, stating that two car loads of emigrants had just started for California, and that large and small parties would follow every day. These emigrants are not poor laborers, but families and farmers with means.

Shipment of Chinese Coolies.

SAN FRANCISCO, April 26.—[Special.]—The steamship Coptic, which is expected to arrive to-morrow from China, brings over 200 Chinese laborers, who go to Victoria to work on the Canadian Pacific railroad.

Murder Case Closed.

RED BLUFFS, April 26.—The trial of the Washington murder case was concluded this afternoon and given to the jury. The trial has lasted four days. Washington, it will be recollected, killed Bill Brown on the night of February 1, 1883. The jury is still out.

San Francisco Notes.

[Special.]—A large belt goes north to-morrow consigned to A. Bunnell, Dalles, Oregon.

The following persons will arrive from the east to-morrow forenoon: J. L. Miller and family of Walla Walla and Rev. R. W. Hill of Salem.

Murder near Madera.

FRESNO, April 26.—A young man named McOr[illegible] was killed by a man named Cottrell at O'Hara's sheep ranch about four miles from Madera last night.

BODY-SNATCHING AT OAKLAND.

Three Physicians Charged With Stealing a Body from Mountain View Cemetery.

SAN FRANCISCO, April 26.—[Special.]—Three medical gentlemen, Drs. Crowley, Harrison and Rand, in good standing, were brought before the Oakland police court to-day, charged with stealing from Mountain View cemetery the body of Clara Lorper. The court room was crowded with spectators. The coffin in which the body of Clara Lorper had lain was in the room. Mrs. Wilhelmina Lorper, mother of the child whose body was taken, was the first witness. She testified that her daughter died on April 2, of the present year and was buried on the Thursday following death. Witness visited the grave on the next day (Friday) and found that the grave had been disturbed. The mound had been altered and a vine which witness planted on the grave at the time of the funeral she could not find. She reported the fact to Mr. Carlton, acting superintendent of the Mountain View cemetery, and on Saturday morning

THE GRAVE WAS OPENED

And the body was not there. The clothes were lying in the grave. The next time witness saw the body was on the table in the California Eclectic medical college. Witness testified to other circumstances of the case. She said Dr. Crowley had visited her daughter before death for an examination of the child and not for treatment, when he measured her deformed limbs.

David E. Collins, secretary of the Mountain View cemetery, testified that on the day of the funeral of Clara Lorper he saw Dr. Crowley with some other gentleman driving past the office of the cemetery. On cross examination witness testified that Dr. Crowley frequently visited the cemetery, but never before had he seen him there accompanied by a gentleman. Witness testified that the

Story, detective of the police, testified that on Saturday, the 7th of April, he served a search warrant for the body of Clara Lorper at the Eclectic medical college. When he went to the college he found Dr. Crowley engaged in a sparring exercise with Dr. Harrison in the lecture room. Witness told Dr. Crowley [illegible] and that he wanted to search the building. WASHINGTON NEWS.

The Union Pacific Debt to the Government.

WASHINGTON, April 26.—[Special.]— [illegible] the Union Pacific [illegible] the government [illegible] indication of paying the money. They [illegible] one technical [illegible] prepared a very vigorous letter upon the subject, in which he related the many evasions on the part of the company and closed with a recommendation, addressed to the department of justice, directing the latter to proceed against the company. The sixth section of the Thurman act provides that no dividend shall be paid by the Union Pacific on its stock until it has met its obligations to the government. The fact that Armstrong prepared such a letter leaked out in some way. This made Teller angry and he destroyed the alleged document instead of sending it. He then prepared a mild article afterward, given out for publication. He was formerly one of the attorneys of the [illegible] and it has been suggested by outside [illegible] that his early relations may have had something to do with the destruction of the Armstrong letter. Mr. Dillon in his answer to-day to the Teller letter lays great stress on the fact that the postoffice department owes the Union Pacific more than enough to set off what is due under the Thurman act. This is no answer, because the money due under the Thurman act must be paid without regard to any claim the railroad company may have upon the government in other directions. One significant feature of the present movement to compel the Union Pacific to pay what it owes is the fact that Senator Edmunds is largely responsible for the new interest taken in the case. It is he who advised and stimulated Mr. Armstrong up to a realizing sense of his duty.

The Cabinet and the Civil Service Commission.

WASHINGTON, April 26.—[Special.]—The cabinet to-day was occupied with a multitude of minor questions appertaining to the departments which have accumulated during the president's absence, and did not take up the consideration of the regulations and programme of the civil service commission, although they were formally laid before the secretary by the president. The rules have been in the hands of the cabinet officers for several days past, and while no broad opinions have been expressed upon them, enough in the way of comment has slipped out to indicate the feeling in regard to them. It is safe to say that the regulations will not come out of the cabinet considerations in precisely the present shape, and in short the rules as they stand are not practical. Dorman B. Eaton has modified them to some extent after the rules of his former commission, which were often impracticable, if not too pedantic. In the chair, Mr. Gregory himself is more of a student than a practical business man, and has naturally fallen in with the error of Mr. Eaton, and Judge Truman, while perhaps more practical than either, is not thoroughly versed in the workings and demands of the departments. Too much high school and not enough business examination is the harmful criticism upon the yet unknown rules.

Particulars of the Appointment of Keim.

WASHINGTON, April 26.—[Special.]—Mr. DeBenneville Randolph Keim, journalist and traveler, was to-day appointed examiner in chief of the civil service commission. The commission called upon the president in a body and recommended Mr. Keim. Mr. Keim's extensive experience as a newspaper man and government office holder eminently fits him for the position, and in an interview to-night he shows his selection to be the best that could have been made. He says he shall lay great stress in his examinations upon spelling and writing, that he should also require some geography and a little consideration of grammar. Dorman B. Eaton said to-night that the commission had selected Mr. Keim from among a large number of applicants because he was a man of ability and wide experience, possessing a calm, well balanced mind and knowledge of men. Besides, General Grant had always shown faith in Keim and had sent him around the world as inspector of consulates, and had endorsed him. Eaton had read Mr. Keim's report of his trip and he considered both works showing ability. Among Mr. Keim's backers were Cameron and Mitchell of Pennsylvania, Logan, Allison, Grant, Simon Cameron, Bayard, Randall and others. Keim now resides at Reading but edits a paper at Harrisburg.

An Appeal for Aid.

WASHINGTON, April 26.—The central committee of the American association of the Red Cross has received the following telegram from F. R. Southward, secretary of the branch association at New Orleans, with regard to the destitution and suffering caused by the recent storms in Mississippi:

WESSON, Miss., April [illegible].

The association for [illegible] is organizing splendidly. In this county there are between 100 and 200 wounded and 1000 homeless, and everything, houses, bedding and clothing, was blown away. In the counties [illegible] the desolation is complete [illegible] sustained aid could be placed before [illegible] sympathizing and [illegible] All is not yet known, but it is appalling as it is. Money is needed at once to buy food, clothing, etc. We think an appeal to New York commerce and Red Cross association will bring a contribution to one of the association's trustees, namely Secretary Folger, Secretary Lincoln or Commissioner Loring.

Why Keim was Appointed.

WASHINGTON, April 26.—Eaton, chairman of the civil service commissioners, said to a reporter of the associated press last night in response to inquiries, that the selection of Mr. Keim as chief examiner was made after the commissioners had fully satisfied themselves as to his capacity to act under their direction in that capacity. He had been recommended very highly, and they regarded him as the best fitted of all applicants. One of the things which had great weight in determining the selection, Mr. Eaton said, was the evidence of Mr. Keim's special qualifications so exhibited in reports made by him on the condition of the consular service of the United States, in the course of an investigation of that service authorized by Congress in July 1870. These reports and recommendations seemed to the members of the commission to show great thoroughness in their treatment of details and capacity to grasp the necessities of an efficient, prudent and economical civil service.

The "Times" not Pleased with Keim.

NEW YORK, April 26.—[Special.]—*Times:* The civil service commissioners made a bad beginning in recommending Keim as chief examiner. It is one of those blunders which are worse than a crime. Keim is a protege of the Camerons in Pennsylvania. He has been intimately and actively associated with machine politics in that state. The fact that Grant confided to him a trip around the world to inspect United States consulates would indicate that it is hardly conclusive as to his fitness for the delicate and difficult duty of organizing and superintending the system of competitive examination.

Other representative papers express similar disapproval to that of the *Times*.

Starving Indians.

WASHINGTON, April 26.—The secretary of the interior has received a letter from [illegible], deputy collector of customs, and John T. [illegible], member of the Canadian parliament, under date of Turtle Mountain, Minn., April 14, in which they say that a Turtle Mountain band of Chippewa Indians are in a starving condition, and unless immediate relief is received few of them will be alive to meet the commissioner of Indian affairs in June, as they now anticipate doing. Allison, commissioner, has directed Indian Agent Lake to use every effort to provide for these Indians at once.

Circular to Customs Officers.

WASHINGTON, April 26.—The treasury department has issued a circular to customs officers, giving notice of the discovery that in some importations of wool into the United States, costs and charges specified in the invoices have been increased above the usual rates, with a view to diminish the dutiable value of wool under the provision of the tariff act of March 3, 1883, abolishing duties on charges.

Ordered to the Coronation.

WASHINGTON, April 27.—Secretary Chandler has issued instructions to Rear Admiral Baldwin, commanding the naval forces on European station, to proceed with his personal staff to Moscow to attend the forthcoming coronation of the czar.

CANADA.

ATTEMPT TO BLACKMAIL SIR JOHN MACDONALD.

OTTAWA, Ont., April 26.—[Special.]—It is reported that the arrest of Sir John A. MacDonald at Toronto on Monday appears to have been considerably exaggerated. There was a warrant issued and consequently no arrest was made. A summons was sent to Sir John in answer to the case of the man Hawes, who professes to have certain claims against the Dominion government for services rendered. The step taken by Hawes is generally condemned by both parties. The ex-minister [illegible] says the attack on the premier is most disgraceful and cowardly. The ex-minister of militia, also a liberal, says: It is almost a laughable attack. All think [illegible] Hawes [illegible] cowardly attempt at blackmail.

TWO [illegible] HUSBANDS RECEIVE DAMAGES.

LONDON, April 26.—[Special.]—Two military divorce suits which have attracted a great deal of attention terminated to-day with decrees and damages of £[illegible] and £10,000, respectively. Colonel [illegible] Bally, of the Indian army, sought a divorce from Mrs. Bally, making her cousin, Robert [illegible], a merchant in this city, the correspondent. There was no defence and the co-respondent paid £10,000 in court. The other case was that of Colonel Nightingale, of the 16th lancers, who sued for a divorce from his wife alleging adultery with Captain Maudsley of the same regiment. There was no defense, and evidence, as in the preceding case, was mainly the voluntary confession of the wife. Captain Maudsley's brother officers asked him to leave the regiment, which he at once did. Both respondents are now living with their respective co-respondents, and extenuating circumstances in both cases in the view of the jury were found in the absence of the respective husbands in India with their regiments when the various offences took place.

LONDON, April 26.—In the commons to-day Gladstone warmly supported the affirmation bill. He considered that the Bradlaugh controversy should be closed.

A motion of the chief secretary for Ireland for leave to introduce a bill making temporary provision for relief to distribute among the poor of Ireland carried 124 to 72.

DISEASE IN CATTLE.

LONDON, April 26.—Lord Carlingford, lord president of the council and minister of agriculture, yesterday received a deputation headed by the Duke of Richmond, which came to confer on the subject of foot and mouth disease among cattle. Carlingford said the assertion made in America that disease was practically non-existent there might be incorrect, but generally speaking there was very little of the disease in that country, especially in the west.

LIST OF THE STARTERS.

LONDON, April 26.—The following is a list of the probable starters and their jockeys in the race for 2000 guineas stakes to be run at Newmarket to-morrow: Lord Falmouth's Britomartis, Arthur; Duke Hamilton's [illegible], Watts; Lord Rosebery's [illegible], Osborne; Mr. C. J. Lefevre's Hauteur, Fordham; Mr. M. Dawson's Lady Brooke, Osborne; Sir J. Bartlett's Lovely Wood, Conant; [illegible] Malagrand.

RUSSIA MAY INTERFERE.

LONDON, April 26.—The *Times* says: Lord Dufferin, on his return to Constantinople from Egypt, has been instructed to remonstrate strongly with the porte in regard to the condition of affairs in Armenia. It says many diplomats believe that if the condition of that country is not improved Russia, after the coronation of the czar, may intervene and force, by being, about an improvement.

THE DYNAMITE TRIAL.

Bernard Turns Informer, and Though an Inspector, Gives Some Interesting Testimony.

LONDON, April 26.—In the conspiracy trial to-day Inspector Boyd testified, giving details of Bernard's confession to him, Bernard having turned informer. Boyd says that Gallagher told him he was accompanied in Glasgow by a person named Coleman Bernard. He returned to New York by the Germanic, but was again sent to England alone directly by his brother, who instructed him to tell Curtin to go to London. Bernard was accompanied on both voyages by a man whose name was something like Curtin. This person

BELONGED TO THE DYNAMITE SCHOOL,

And went to London. Gallagher heard his brother say good work was not done by this school, but by the Irish conspirators. Bernard stated that another brother named Daniel, and Coleman returned to New York in the Germania, because they did not believe in doing what Curtin wished to have done. Boyd stated that Bernard, when in custody at Glasgow, offered to go to London in the service of the police and induce his brother to tell everything he knew, and said he (Bernard) would

IDENTIFY ALL THE CONSPIRATORS.

He said there were a number of rich men in the dynamite school in New York and that O'Donovan Rossa was connected with one school. The latter statement the inspector said was made casually. Bernard said he was about the first conspirator to come to England. He knew all the conspirators, having given them in Brooklyn, where there are about thirty of them.

Bernard became excited at the exposure of his [illegible] informer and several times corrected details of the inspector's testimony.

IRELAND.

[illegible] OF IRISH SUSPECTS DENOUNCED.

DUBLIN, April 26.—Mr. Harrington, M. P., in his speech at a meeting of the national league yesterday, charged the police with intimidating the people for the purpose of preventing them from [illegible] and subscribing to the testimonial to Mr. Parnell. He said many men had been lying in prison for months and some for years without being brought to trial before their foes. They were tried by star chamber inquiries and their friends were unable to offer any evidence to extricate them. One informer was sufficient government evidence, no matter how many persons could prove the innocence of the accused party; accused was never brought face to face with the informer; he was even daily tempted with offers of freedom, money or bribes or whisky to induce him to swear away the liberties of his fellow man. [Cries of shame! shame!] Mr. Harrington said he could prove that such overtures had been made to several men in the Galway jail by detectives who had tried to induce them to swear away the liberty of men not in custody. It was necessary (he said) in conclusion to resist the efforts which are being made to crush Irish liberty and public opinion.

OMAHA, Neb., April 26.—[Special.]—The Denver and Rio Grande railroad company announces that the western branch from Denver, which is now completed to Salt Lake City, will be opened to Ogden, to connect with the Central Pacific railroad about May 1. This being in direct competition with the Union Pacific, which likewise connects with the Central Pacific at Ogden.

MONTANA.

Local Politics are at Butte Warming Up.

BUTTE, April 26.—Intense excitement was produced here, owing to an open letter published in the *Daily Miner* addressed to W. J. Lippincott, republican candidate for city attorney, signed by E. B. Thompson, attorney-at-law, in which Lippincott was branded as a coward, liar, poltroon, etc. Thompson and H. T. Brown, business manager of the *Miner*, were arrested on a charge of criminal libel at the instance of Lippincott. There is considerable bloodthirsty talk, but it is believed the case will be settled in the courts.

THAT OPPOSITION LINE.

Between Portland and San Francisco—An Abundance of Rumors, but Nothing Definite.

SAN FRANCISCO, April 26.—[Special.]—There is some talk in shipping circles of a movement which has for an object a line of opposition steamers between this port and Portland. The advisability of establishing such a line has been freely discussed, and those who have been approached say that no doubt it would pay. Overtures were recently made to parties owning the controlling interest and representing such interest in steamers putting out from here, but no definite result was reached. Prominent shippers who regard the situation calmly say that rumors to this effect have been floating around for some time past, and that parties inside refuse to give any decided answer in connection with the gossip. That it is well advised in certain particulars is evident from conversation with certain ship owners who desire to obtain immigrant passengers to the north. One of these parties stated to the OREGONIAN reporter that he is perfectly willing to

OFFER MATERIAL INDUCEMENTS

To Chinese going to Victoria, and that he had no doubt he would be able to secure a division of patronage but for an agreement existing between the Pacific Mail and O. R. & N. steamship companies relative to the transportation of passengers and freight from Hongkong to the north via San Francisco. Return freights could be procured from private enterprises, such as the coal mines, controlled by persons who charter the vessels to carry that product to this city, and in this manner the contingencies of return freights being secured by the established companies would be provided for.

It is impossible to account for the rumors that Villard has purchased an interest in the new steamer Mexico, and that, on the conclusion of her next trip, she will be

PLACED ON THE NORTHERN ROUTE.

Inquiry at the custom house fails to reveal any notice of the sale of the vessel, though such may have been given at New York, which is entered as her home port, though she was built here. Her owners are not real sure, B. M. Hartshorne of New York owning two-thirds and A. H. Wilcox of San Diego one-third. Customs officers state, however, that they have heard of a rumor that she arrived from Guaymas this afternoon, but no notice of her sale or alteration of her route had been given to her master. The New-[illegible], owned by the same parties, will be ready to go to sea in two or three days, and in all probability her course will determine the matter definitely.

THE LAND LEAGUERS.

Permanent Organization Effected—Communication from Parnell Read.

PHILADELPHIA, April 26.—At the afternoon session of the land league the galleries were crowded, 1150 delegates being on the floor, while 40 delegates (ladies) were given seats upon the stage. Mrs. Parnell was loudly cheered upon entering.

On motion of M. O'Gannon of Iowa, a resolution of respect and sympathy for the mother of Fanny Parnell was adopted by a rising vote. It was stated that the Central league of Boston would decorate Fannie Parnell's grave.

The customary committees on permanent organization were appointed, and the following telegram read:

LOUISVILLE, Ky., April 26.

Sons of Erin, Patriots—Ireland's hopes are centered in you. Sink all differences for her sake. Unfurl a stainless banner with Irish-American National League inscribed thereon, and Erin's deliverance will soon be won.

WM. McCREADY.

After a short recess permanent organization was effected with the following officers: Chairman, M. Foran of Ohio; secretary, John J. Hynes; assistant secretaries, John C. Enright of Michigan, Edward Fitzwilliams of Massachusetts, Cornelius Horan of Pennsylvania, J. D. O'Connell of Washington. A number of vice presidents were also chosen.

Foran, before taking the chair, said enough speeches had been made and now was the time for work. He counselled the unification of every Irish society perhaps in the whole world.

The following telegram was read by Father Dorney:

LONDON, April 26.

James Mooney, Esq., President Irish-American Convention:

My presence at a session of the most representative convention of Irish-American opinion ever assembled being impossible owing to the necessity of my remaining here to oppose the criminal code bill, which re-enacts permanently the worst provisions of the coercion act, and, if passed, will leave constitutional amendments at the mercy of the government, I would ask you to lay my views before the convention. I would respectfully advise that your platform should be so framed as to enable us to continue to accept help from America, and at the same time avoid affording a pretext to the British government for the entire suppression of the national movement in Ireland. In this way only can unity of movement be preserved both in Ireland and in America. I have perfect confidence that by prudence, moderation and firmness the cause of Ireland will continue to advance, and though persecution rests heavily upon us at present, before many years have passed we shall have achieved those great objects for which, through many centuries, our race has struggled.

CHAS. STEWART PARNELL.

The committee then adjourned, and the convention adjourned until Friday.

C[illegible] THE WORK.

PHILADELPHIA, Pa., April 26.—The committee on organization of the National Irish League elected Michael Boland of Kentucky chairman, after a protracted debate. A sub-committee was appointed on constitution, for a plan to be submitted to the full committee to-morrow morning. The sub-committee consists of Col. Michael Boland, James Reynolds of Connecticut, John O. Mahony of Tennessee, J. C. Donnelly of Michigan and C. J. Smith of Nebraska. Col. Boland, member of the land league commission of seven, is chairman. This is regarded as indicating the adoption of a land league policy in the national reorganization. Col. Boland was of the counsel for John Devoy in the suit brought against him for libel by August Belmont. Devoy antagonizes the dynamite business or Rossa policy. The most important question before the committee to-night was the second resolution of the printed programme, to the effect that free trade for Ireland is above all things demanded and desired.

PHILADELPHIA, April 26, 11 P. M.—The committee on platform and organization is still in session. Members say that their deliberations will not be concluded before 2 o'clock to-morrow, and probably much later. The chief result accomplished by the two conventions so far is the appointment, without serious discord, of commissioners to evolve statutes and conditions upon which all Irish societies in America unite. The league convention yesterday had not definitely adjourned.

SUPREME COURT.

SALEM, April 26.

N. B. McCoy, appellant, vs. Josiah Fullerton, respondent. Appeal from Columbia county. Decree of the circuit court affirmed. Opinion by Lord, J.

SYLLABUS.

It is a general rule regulating equitable relief that he who seeks equity must do equity, and before a plaintiff can have an absolute conveyance declared or transformed into a mortgage, equity requires that he should be willing to pay the amount due. He cannot demand equitable relief in respect to the contract while failing to perform his part of it.

William H. Taylor, respondent, vs. William Brost, appellant; argued and submitted.

Court adjourned until 10 A. M. to-morrow.

A BAD MUDDLE

Perhaps the most complicated and unintelligible system on earth is the tariff [illegible] It is an inextricable muddle of duties which varies with every article and the value of every article There is first a bottom rate of so much a yard pound or gallon Then there is an addition of so much per cent, according to the value of the article whenever it exceeds a certain cost The "value" is the value at the point where manufactured. The line of demarkation between grades is indefinable, but to the importer it may make a difference of $1,000 upon a single importation. Hence the importer swears it down and the official swears it up The secretary is appealed to, and his decision is generally worked up by some understrapper who knows nothing about the particular matter in question. An official gives the New York *Times* an instance It is of Austrian table cloths of which the importation is large Table cloths are not on the tariff To what class do they belong? According to one decision if the thread is dyed before it is woven it is gingham Well, this is so dyed but the goods are not gingham.

Again, if the thread is woven with a twill it is jeans, this is so woven, but these are not jeans. With a view of being right the officer assessed the highest rate of duty, of course he turned out to be wrong, and now the government is busy refunding duties overcharged on this class of goods. This is merely one case out of hundreds that might be mentioned in which the owners of the property have a direct interest in understanding their goods, or in entering them in classes where they do not properly belong. The officials find themselves so hedged about with small definitions and difficult particulars that in many cases they absolutely cannot tell what the duty ought to be on a given importation.

[illegible] this system perjury and undervaluation [illegible] largely upon the increase It results in a large loss of income to the treasury but the far more important loss is of integrity. Its influence is far-reaching Goods which have paid less duty can be sold for less than those which have fully complied with the law. Thus honest merchants are [illegible] in their trade. At some distant day [illegible] we shall change all that The [illegible] will be clear and simple. All raw materials [illegible] (books, pictures, and works of art), will enter free of duty [illegible] will be but one tariff rate for [illegible] twenty, twenty-five or thirty per cent. ad valorem. But whatever the rate [illegible] importer can figure it [illegible]. Very likely the "value" will be [illegible] at the port of entry. When this is [illegible] it will be perfectly easy for the officer [illegible] what the duty should be. And [illegible] confirmed in perjury [illegible] nothing else will [illegible] other countries which have [illegible] custom houses to an honest [illegible] basis.

[illegible] DEAD WIFE'S SISTER

[illegible] it is legal for a man to marry [illegible] when and where he likes so [illegible] he has not another wife living. If his [illegible] leave several children, in nine [illegible] will confide them before [illegible] to the care of her sister if she has [illegible] husband goes daily to see [illegible] extending to their [illegible] that degree of filial affection [illegible] belonged to the missing loved one [illegible] beyond the course of natural [illegible] that the father should, in course of [illegible] marry the woman who has taken [illegible] burden of loving care where the [illegible] laid it down? Should he marry [illegible] woman, what care or respect [illegible] receive at her hands? And [illegible] better to entrust them to the [illegible] care of their beloved aunt by marrying [illegible]. This is the thought which pervades [illegible] at such marriages as this, and [illegible] no immorality to be seen on [illegible] of the proposition, although its [illegible] is susceptible of perver-[illegible]

[illegible] was his wife and have [illegible] on his side; and the sister-[illegible] in order to be-[illegible] two within a few months after [illegible] with a dose of laudanum [illegible] but such cases are exceptional [illegible] impossible, are cer-[illegible] The American mind [illegible] to carry out, nor is it [illegible] an established church which [illegible] in the dignity of a law-making [illegible]. If a man prefers that his second wife [illegible] the sister of his first one, the woman [illegible] by society to be the best [illegible] to judge of the fitness of such a [illegible] and to everybody else it says, "None of your business."

[illegible] the house of lords, in which the bishops sit and help to make the [illegible] with horror upon any innovation on existing laws, for the reason that there is something where innovation will [illegible] would probably be [illegible] of a seat and a vote in the house of lords. Hence they have been the [illegible] opponents of the bill to legalize marriages of this sort. The Prince of Wales and the Duke of Edinburgh have been strong advocates of the bill, but the church party has [illegible] too strong for them; and it is [illegible] that the queen of England backs [illegible] in their antagonism to the proposition [illegible] a spirited contest with her [illegible]. The bill has twice passed, the commons, but has met its defeat in the house of lords, each time through the agency of the established church of the realm But the proposition will be renewed at the next session of parliament, and it is said that the heir apparent to the British throne has succeeded in enlisting the sympathy of the great and influential Earl of Dalhousie in its behalf, by whose assistance he hopes to make new converts to the measure and so overcome all opposition

The American view of the matter is evidently the more practical one, because it leaves the case to the consciences of the contracting parties The thought of any improper relations with a sister-in-law, while the wife herself is living, is disgusting to all decent people, and no more to be entertained than the idea of getting rid of the wife by poison or dynamite If the man has never known his wife's sister familiarly, then no objection can possibly exist If he has known her as the devoted guardian of his children and their tutor in those tiny bits of domestic wisdom which a man cannot [illegible] she has then been submitted to a test which no longer leaves a doubt as to her fitness to become his honored wife and the future guardian genius of their home. The Earl of Dalhousie might take a trip to America and look up his case for himself It might aid him in an intelligent vote on the bill when it comes to a third reading

Olive Logan met Carl Rosa on the street in London the other day and straightway wrote off to the Philadelphia *Times* in this reminiscential mood: "If Carl Rosa is no longer the slender violin st of lang syne a Romeo chef d orchestre, am I the Juliet of proportions symmetrical that I was? No sir I am not I am one of those women depicted with such humor by Hawthorne, who starting life as a violet, have in course of years expanded to the dimensions of the dahlia

The failure to convict in the case of the City vs. [illegible], the defendant being one of the batch of saloonkeepers on trial for violation of the new liquor ordinance, was the consequence of an error in the complaint. [illegible] was charged with selling whisky whereas, the testimony showed that he sold [illegible]

BUY AT HOME

Many people of this country have an inveterate habit of sending to California or the east for many things which they can as well get at home A foolish and shoddy feeling that the thing far away is better than that which can be got at home is common and very often we see exhibited with special pride something whose only special excellence is that it came from New York Local manufacturers are unable to sell their plows and wagons [illegible] of the mistaken notion that those from manufacturers are better have been compelled in many instances, to give up business. Our canned fruits and vegetables are sold in our own market but not till they have gone to California and taken on a borrowed brand Our woolen manufactures are sold at home when the fact of the place of production is concealed And every day we see people sending away from home for furniture for their houses the very clothes they wear and a hundred other articles which they ought to buy in their own town. Our merchants are enterprising and their stores are well stocked, and if their shelves do not afford exactly the thing desired they are uniformly prompt in getting it on special order It is discouraging to men who try to serve the public well to be slighted by their neighbors There are few things of [illegible] use which cannot be bought in Portland And the little difference in price in favor of eastern goods is more than overcome by freight and express charges Our people should have better local spirit If all the small business which now goes to San Francisco and New York were given to home establishments in a year we should have stores equal to the best anywhere

---

The democrats of the New York assembly having shown their fealty to Jacksonian democracy by killing a bill to establish the principles of civil service reform in the choice of clerks in the state offices have followed up that action by another demonstration of their fealty to what the late A. H Stephens called "democratic spirit" by passing a new excise law for New York city and Brooklyn, the object and effect of which is to lighten the restrictions on getting up rum shops in those two cities Most people of moderate views had supposed that the liquor business was sufficiently encouraged in New York city already, but the democratic party, anxious to secure its future ascendancy, does not think so.

A fleet of 30,000 merchant ships bears the British flag, and the earnings in the transportation of freight are said to reach $300 000 000 a year a large part of which is contributed by the United States. The passenger earnings are also obtained chiefly from the pockets of Americans, except what is received from emigrants It is difficult, says the *Mail and Express* to realize that this country held the first rank in shipping a quarter of a century ago and it is still more difficult to believe that it will regain that rank while the present generation of statesmen control legislation at Washington

---

It is reported that the 21st infantry regiment, so long stationed in the department of the Columbia, will this summer be transferred to the northern department with headquarters at Detroit. The 21st came to the coast in 1869, and on the way across took part in the ceremonies of driving the last spike on the Central Pacific In going to the lakes this summer, the continent will of course be crossed by the Northern route. It would be an interesting coincidence if the "fighting 21st" should be present when the last spike is driven on the Northern Pacific line

SETTLEMENT WITH CHIEF MOSES AND HIS PEOPLE

BY REV GEORGE H ATKINSON

The Issue

It has been well stated by THE OREGONIAN that the grant of the reservation to Moses and his people on condition of their removal to it and peaceable occupation, was a pledge which the United States government is in honor bound to keep To take it from them by occupying it ourselves for mining or stock raising or farming will be an injustice As no person can afford to be unjust, so no government can safely break its pledge The bond of a republic binds all its citizens A wrong done by the chosen officials of this nation, from the president down, dishonors and shames every freeman Shall the pledge to Moses be kept, or shall Moses and his bands be forced off or into narrower quarters at the cost of war? The latter has often been the policy The plea is that the Indian has no inalienable rights, that he is a savage; that grants of reservations give him no legal titles that the promise to him of any tract of land, large or small, is merely for a temporary residence, making him a tenant at will of the grantor, who can cause an ejectment at any time and assign him another abode In fact, he has no true home He "must go" when the whites come. For example, the Siwash and other tribes in New York have no legal title to their reservations. The individual Indians are not allowed to own the lands in severalty, or to buy or sell, or to be taxed on this realty They are farmers and mechanics but they cannot vote The same defect exists in the Indian territory and on every reservation made by the government, with very few, if any, exceptions. In other words, the Indian is counted a protege of the government, entitled to a home somewhere at the will of his [illegible] This view subjects him to removal when the pleasure or interest of the government demands it The right of eminent domain is not only held over reservations as well as lands not reserved, but grants of reservation lands are made to railroad companies, with absolute titles, and the Indian is quieted with gifts

In respect to legal titles under grants, the Indian's claim is held to be invalid In this principle the grant or pledge to Chief Moses and his adherents carried no title, but only a permission to occupy If he and his company claim it to be their own, the white settlers deny their ownership. If these facts were not made known by officials who made the bargain, they were implied by the word reservation which in no case conveyed title. Moses knew that. He often visited the Yakima reservation to confer with Agent Wilbur, who knew that no title had been conveyed to that tribe of its reservation, and that no Indian farmer there had a title to his farm He knew that he had no title to his farm on the Columbia near Priest's Rapids His hold on it was not equal to a squatter's right, because he had not dissolved his tribal bond and taken the independent stand of a citizen, according to the act of congress of March 3, 1875 which made a simple and complete provision therefor. The issue between him and the government now is upon the title On the broad basis of United States ownership miners, stock men and farmers go into that reservation to make money and settle if prospered The Indian cannot prevent them by law or eject them by force. If he tries the latter they will call on the government for protection and war will ensue with its dire results

THE DEMAND OF THE HOUR

This is plainly to deal with Indians as men, not as tribes or clans It would have been far easier and cheaper to have given Moses a legal title to his ranch on the Columbia river and satisfied him with means to stock it and farm it five years ago, than it is now and to have done the same to his clan and his camp followers, as individuals He is open to bargains Messrs [illegible] and Wadleigh, who had large herds on his reservation, when he went there hired him to care for their stock, which remained safely in his charge He has business qualities He has [illegible] ideas of personal rights His people have the same The Indians on reservations ask for titles to their homes The English have dealt with them as individuals—not as tribes This was the policy of the Hudson Bay Co and it was a just and successful method. We must adopt the same We have begun [illegible] do it by treaty promises and partially by teaching them to be farmers and mechanics and distinctly by the act of March 3, 1875. We must now make that act clear to the Indian, and insist upon it He must leave his tribal bonds and be an independent man The act that leads the Indian into American citizenship is just and honorable to him and a credit to our government The grant to him and his wife and children of homesteads with clear titles after a [illegible] number of years is a kindness to himself and family The generous aid usually given the Indian to open and stock his farm [illegible] educate his children is a mark of [illegible] will and [illegible] wisdom as well The duty it makes [illegible] to every Indian and [illegible] to dissolve all tribes by the higher law of personal well being is now paramount The Indian chief loves power and nurses his greed for leadership He clings to the tribe with this [illegible] He is clannish from personal interest It is an idea which becomes a passion It has a family bond and a life-long habit But a process of [illegible] position and disinterestedness has wrought changes Indians are leaving their people and [illegible] co-laborers with the whites in many industries Families have come away from the wigwams fisheries and camps [illegible] settled homes for themselves [illegible]

Chiefs resist this tendency like Spokan Geary and Moses [illegible] who [illegible] the [illegible] It is possible to [illegible] more rapid [illegible] by the motive of personal interest The [illegible] and stragglers whom Moses has brought together on his reservation can no doubt be induced to [illegible] their own homes in groups by steady motives which they will see and feel It is possible that Moses can see and accept [illegible] great value [illegible] near his old home [illegible] legal rights are stronger than grants and [illegible] He can see the path of higher honor and value than to be a chief of fickle clans To lead to such a result is nobler and better than to lead in another Indian war

THE MISTAKE

It is felt that his removal with his followers to lands along the British line was an error There was indeed clamor for his removal at the time but it was a short sighted policy Better to [illegible] Indians than congregate them Far more just and humane and wise to deal with them singly than in bands and tribes

The true idea of the act of congress March 3 1875, was to lead them out to make homes of their own This ought to have been done at every point and by every motive and means It solves the Indian problem slowly, but does it surely and humanely to us and to them.

THE PERIL

The note of another Indian war in this region will [illegible] be sounded by the loudest in the east Its beginning will have the taint of wrong and its progress [illegible] of [illegible] It will be the breath of [illegible] extermination of this weak and defenceless band [illegible] the [illegible] list of Indian wars which already blacken our history It will be as shameful as it is needless Our nation has wisdom enough and time and means [illegible] to deal with Indian [illegible] tribes. It must not [illegible] punish [illegible] a [illegible] War upon an Indian tribe now is a disgrace which we cannot wipe off

[illegible]

In her [illegible] of the [illegible] in order [illegible] whole tribe of Indians for the sins [illegible] Indians [illegible] women and children [illegible] race has occurred [illegible] from the English if we [illegible] learn it from the spirit of justice itself

IMMIGRATION

[illegible] will be greatly the first result [illegible] it will be trouble to rival that [illegible] of thousands of new citizens [illegible] transcontinental railroads we shall have [illegible] a few hundreds With this failure the [illegible] of [illegible] will be checked and the losses [illegible] will exceed whatever gains [illegible] they expect from the disbursements of armies

[illegible] VIEWS

The true basis [illegible] settle the Indian question [illegible] the basis of individual rights Why shall the [illegible] after the [illegible] of external [illegible] race the citizens [illegible] individuals? Why [illegible] Bannocks, [illegible] and [illegible] who [illegible] murderers were [illegible] Why hunt and slay [illegible] for the [illegible] which [illegible] Why harassing [illegible] Indian farmers [illegible] with bandits? Why [illegible] clamor against [illegible] extermination [illegible] our [illegible] outlaws, as we do upon white outlaws [illegible] Why not [illegible] the policy [illegible] for every Indian family widely [illegible] of congress and let them stand on their good behavior like other citizens?

OREGON'S PROSPERITY

Steamers Refusing Freight Forty-Eight Hours Before Sailing Character of the Freight

SAN FRANCISCO April 26 —[Special]—The *Bulletin* this afternoon says: The great tide [illegible] trade between San Francisco and Oregon [illegible] northern ports [illegible] to the [illegible] of the Oregon company at the foot of Spear street and watch the loading of the largest steamers for Portland. The large steamer Oregon was yesterday [illegible] freight for as fast as possible Some of the packages put aboard were simply immense A package of this kind was dropped on the wharf yesterday It was at least twelve feet long four feet wide and five feet high and looked as though it would barely go through the hatchway It contained machinery Considerable cargo was already aboard and the

WHARF WAS LITERALLY STREWN

With freight to go aboard as soon as it could be reached while outside of the gates were truck loads of stuff waiting for an order to come in Some of these trucks had been there for hours When it is remembered that this picture is daily repeated at the same wharf, with frequently more crowding we get some idea of the quantity of freight being shipped from San Francisco to Oregon The steamer Oregon does not sail until 10 o'clock to-morrow morning and freight for her is declined forty eight hours in advance of her departure If such steamers sailed once a week as formerly, it might be easy to understand this condition of thing, but there are three regular steamers every week, besides extra steamers quite frequently.

ONE OF THESE EXTRA STEAMERS

Having left yesterday, with all the freight she could carry, including a lot on deck tied to the rails These large steamers will carry from 2,800 to 3000 tons of freight In addition to these shipments direct to Oregon are large, and quantities of freight are going forward to Puget Sound ports and to British Columbia All the steam colliers employed in bringing coal from these northern mines go back well loaded with assorted freight and we fancy that is how it pays to freight coal with steam Sailing vessels returning to Sound ports and to British Columbia for coal and lumber for this port also take up large quantities of freight This freight is of all descriptions and from all parts of the world including a fair sprinkling of California produce

POLITICAL

HOW DANA'S REVIEWS ARE RECEIVED BY THE PRESS

NEW YORK, April 26 [Special.]—Dana's political utterances in California are discussed in several morning papers The *World* says The *World* and Dana are now in accord on the tariff question, so far as concerns the rate which is to govern the arrangement of the new tariff tables Randall drops quite out of the arena as a Democratic candidate for speaker and Dorsheimer now comes to the front and will be a prominent figure in the democratic caucus in December next

The *Star* says In consequence of an editorial Sunday last advocating Tilden's presidency claims and which was telegraphed to California Dana gets himself interviewed, and flatly repudiates the utterances of his own paper Dana's words receive additional emphasis from the fact that they are revealed by the editorial writer in his absence and are, therefore, deliberately designed to ruin the Indian summer boom."

The *Times* says Dana's summary review of leading candidates in the two great parties coming from one of the foremost men in the democratic party will command great respect It is possible that they will carry dismay into the hearts of many democratic candidates who have had hopes, and it may be added that this publication from far off California will increase the woes of eminent gentlemen who think to plow with protection and free trade yoked together

THIRD CASE OF THE LIQUOR PROSECUTION.—The trial of Louis Sechtem for selling liquor without license was commenced in the police court at 10 o'clock yesterday forenoon. By noon the following gentlemen had been empaneled as a jury: J. H. Boyd, S. M. Donnell, W. A. Kennedy, E. Holman, F. W. Higgin, Peter Neppach. Here the court adjourned till 1:30 in the afternoon, when the case was resumed. Counsel for the defense did not use so much effort to cause delay as on the previous trials, but when it was discovered that the complaint charged Sechtem with selling a gill of whisky and the testimony showed that a dry glass of brandy was what was purchased, matters began to look mixed. The defense refused to allow the complaint to be amended. There was also a lack of evidence to prove that Sechtem was the proprietor of the place where the liquor was sold, but this lack was eventually supplied by introducing his bookkeeper, and it was held that if the liquor was sold by Sechtem's agent it was the same as if he had sold it himself. The judge charged the jury that if the evidence showed that the spirituous liquors were sold by Sechtem or his agent he was guilty, and that if he had a license it was to be produced as evidence. The jury retired, and after deliberating for some time and failing to agree was discharged. Four were for conviction, but Holman and Neppach favored acquittal. Sechtem will be arraigned on another charge to-day. The judge fined the fire of Flanagan at $100 and Backinsto & Quinn a $50 each.

DEATH FROM DRINK.—About 8 o'clock yesterday morning Frank Weeks, night clerk of the Burton house, was found dead in his bed. The body was removed to the morgue and an inquest was held at 2 o'clock, at which it was shown that the deceased was under the influence of liquor for the past five or six days, and that on Wednesday morning he had become delirious from his excessive drinking. At that time a physician was summoned, who administered a potion to quiet his nervousness, after which he was put to bed by Mr. Burns, the present clerk of the house. About 4 o'clock in the afternoon Weeks made his appearance in the barroom of the hotel and piteously begged for more whisky. The liquor was refused him and he was again taken to his room and put to bed. A second potion was administered and the wretched man was left to sleep off the effects of the alcohol. This was the last seen of Weeks alive. This morning the clerk went to his room to see how he was getting on and found his lifeless body as above stated. The verdict of the jury was to the effect that death was caused by apoplexy superinduced by drinking. Weeks was a young man of considerable promise, having come to Portland some time ago from Maine, where his parents now live and where he has left a wife and two children to mourn his untimely death.

THE ODD FELLOWS' CELEBRATION.—The promenade ball and concert given by the order of Odd Fellows at the pavilion last evening, was largely attended and proved a most enjoyable affair. The main hall of the building was brilliantly lighted and decorated with hundreds of flags of all sizes, shapes and colors. The very excellent musical programme was rendered by the orchestra in a style which made everyone wish it had been longer. The oration of J. E. Hazeltine, P. G. M. of Maine comprising a brief history of the order and a statement of its progress and purposes was listened to with much interest. At the conclusion of the concert the floor was cleared for dancing, the band struck up the grand march, and those who wished promenaded to enjoy themselves in dancing, which was kept up till a late hour. The receipts will add a considerable sum to the fund for the erection of the Orphans' home.

RECEPTION.—Last night a reception to Mr. Villard was given by Senator and Mrs. J. N. Dolph. It was in all respects a most brilliant affair. The invitations numbered about 300, and the assemblage was probably the finest that ever gathered in this state. Music was furnished by the twenty-first infantry band of Vancouver post. The entertainment was characterized by the elegance and broad hospitality for which the Dolph mansion is noted.

FISH TRAP PREPARING.—The boat for the lately invented fish trap will be completed in a week. The iron netting for the cage has been ordered and the nets are in process of being manufactured. It is expected that the trap will be completed and ready for service about the middle of May. When it gets at work it will become necessary to consider the matter of starting a hatchery for salmon at once.

MILITARY AND PERSONAL.

Vancouver Independent.

Capt. Gilbert C. Smith has entered upon his duties as depot quartermaster at Vancouver barracks.

Col. M. I. Ludington, chief quartermaster, is expected to arrive at headquarters in a short time.

Lt. G. W. Goethals, chief engineer officer of the department, returned this week from his trip into the Moses country.

Lt. Abner Pickering, 2d inf., reported at headquarters yesterday morning, and will probably remain for a week or more.

Master Elwood Evans, son of Capt. G. W. Evans 21st inf., who has been attending school in Baltimore, joined his father a few days since.

It is getting to be a generally accepted impression that the 21st infantry will not be removed east until the Northern Pacific railroad is completed.

Col. Jas. B. Fry, retired, visited headquarters a few days since, accompanied by Senator Dolph, Judge Deady and H. W. Corbett of Portland.

The wife and daughter of Capt. Jas. A. Haughey, 21st inf., sailed for New York on the 15th, from England, and are now once more on American soil.

Lt. C. M. Truitt, 21st inf., has relinquished his leave of absence for the purpose of going into the field with his company, now in Chief Moses' country.

The military bridge across the Spokane near Fort Spokane was recently washed away. It was a great convenience for the post, and will probably be rebuilt soon.

Captain W. A. Elderkin chief commissary of subsistence of the department, reported for duty yesterday. Captain Cushing, who is relieved, will depart for the east about May 1.

By order of the war department Captain H. H. Pierce, 21st infantry, has been relieved from duty at the Forest Grove academy, and remains on duty with his company at Vancouver barracks.

While on his recent trip into the country of Chief Moses, Lieutenant W. R. Abercrombie, 2nd infantry, was engaged in making an enumeration of the Indians for the information of the Washington authorities.

Lieutenant John M. Ross, 21st infantry, left yesterday, en route for Fort Townsend in charge of a detachment of recruits. Lieutenant O. A. Williams, 21st infantry, also took charge of a detachment for Fort Canby.

The U. S. grand jury at St. Louis has ignored the charges against the late Major C. D. Baker, United States army, arising out of the purchase of certain mules for the government from various dealers in that city in the summer of 1881.

THE FISH LADDER.

CORVALLIS, April 25.

TO THE EDITOR OF THE OREGONIAN:

I notice in to-day's OREGONIAN your local asking for information in regard to the fish ladder at Oregon City. For the benefit of inquiring and anxious one's, allow me to say that all is being done that can be toward the desired result. Many kinds of fish ladders are used, and the selection of one best suited to the purpose on the Willamette will take some time, and the location at just the desired spot must also be after due examination of the falls at low water. Hence, I shall be very glad if I am able to have the work ready for contract in time to be completed during this season's low water. WALLACE BALDWIN.

REPORTED WRECK.

A. O. Yates, writing to this city from Nestucca, Tillamook county, says: A sloop or schooner was totally wrecked a few days ago at Haystack rock, one mile from Sand Cape, about forty miles from Tillamook. Wreckage came ashore on the Little Nestucca beach, five miles below, but nothing has as yet been found to indicate the name of the vessel. No bodies have been recovered.

"THE PORTLAND."

SOMETHING ABOUT THE HOTEL TO BE ERECTED ON CENTRAL SCHOOL BLOCK.

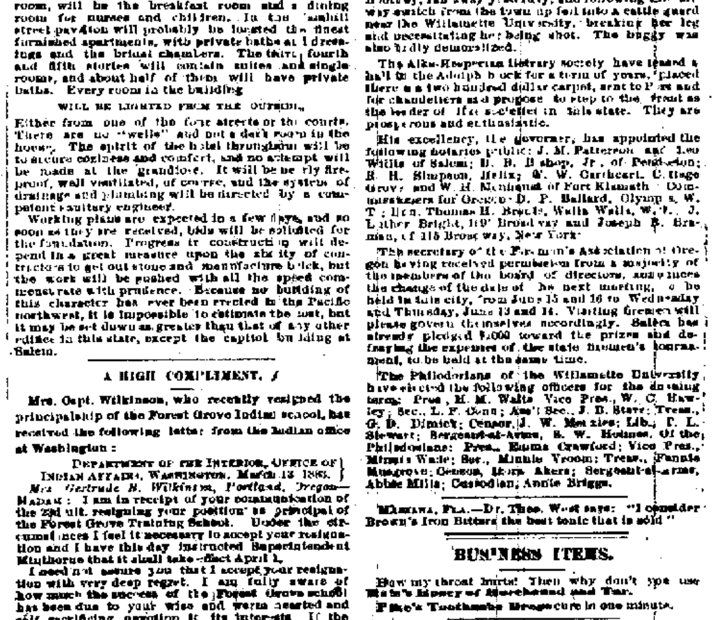
An Edifice with 325 Rooms and not One of Them Dark—Work to be Commenced at Once.

Some days ago preliminary plans for the proposed hotel on Central school block were received here from the office of McKim, Mead & White, New York, and after thorough discussion by Mr. Villard and the officers of the Northern Pacific Terminal Company in this city relative to the size of the building, the plans were adopted and work ordered to commence at once.

Through the courtesy of Mr. W. R. Mead, of this firm, who arrived here with the Villard party, a reporter of THE OREGONIAN was permitted yesterday to see the preliminary drawings. The architecture of the hotel is what may be termed a

PAVILION STYLE.

Closely following and improving the architecture of French and German chateaux. The ground plan has the form of the capital letter H, with the connecting stem not in the center of the parallels, but nearer one end. Every one knows that it is impossible to give a thoroughly intelligent description of a building without the aid of complete diagrams and sketches. However, the following rough ground plan will serve as a guide to the description below, necessarily incomplete and unsatisfactory:



The engraving of the front elevation published in the last number of the *West Shore* is approximately correct and gives one a good idea of the appearance of the building. It will be five stories high above the basement, and surmounted by a slate roof, and above this will loom up two staircase towers surmounted by observatories. The pavilions—i. e., the parts of the building fronting Morrison and Yamhill streets, are 50x200 feet, and the center 50x100 feet. The building to the second story will be of uncoursed square stone laid up in large blocks, and the upper stories will be a combination of pressed brick and stone. Owing to the slope of Sixth and Morrison streets, the basement of the hotel at its northeast corner will be a full story, and at this corner will be located the bar and billiard room, with entrances from the street and the hotel. The remainder of the basement will be devoted to the barber shop, lavatories, laundry, bakery, baggage and storage of supplies, etc. There will be no stores in the building. Baggage will be handled through the basement to the elevator, and conveyed by it to the several floors.

The first floor will contain the offices which are located in the center; the restaurant, smoking and reading rooms, news stand, parlors for men, meetings, and commercial travelers' rooms. There will be a ladies' entrance on Yamhill street, midway between Sixth and Seventh, leading to the reception parlor, and this leading to the elevator and small corridor. The

MAIN ENTRANCE

Will be a driveway from Sixth street into an uncovered court, surrounded by piazzas and beautified by grass, flowers and fountains. Corridors at either side of the court entrance will lead from Sixth street to the office. In the court, facing Seventh street, there will be a sunken yard for the service of the hotel, into which all the supplies will be delivered. The office will have ample light from the east and the west. It will be adorned by four massive fire-places and will combine the comforts of the better class of English inns with the grandeur of the American caravansari. The second floor will be reached by winding stairs, leading to the grand corridor which connects with the ladies' parlors. These are directly above the offices, overlooking Sixth and Seventh streets. Winding stairs continue to the roof. The dining room will be located at the eastern end of the Morrison street pavilion and will be lighted from three sides, Morrison street, Sixth street and the court. Connecting with the main room, will be the breakfast room and a dining room for nurses and children. In the Yamhill street pavilion will probably be located the finest furnished apartments, with private baths and dressings and the bridal chambers. The third, fourth and fifth stories will contain suites and single rooms, and about half of them will have private baths. Every room in the building

WILL BE LIGHTED FROM THE OUTSIDE,

Either from one of the four streets or the courts. There are no "wells" and not a dark room in the house. The spirit of the hotel throughout will be to secure coziness and comfort, and no attempt will be made at the grandiose. It will be nearly fire-proof, well ventilated, of course, and the system of drainage and plumbing will be directed by a competent sanitary engineer.

Working plans are expected in a few days, and as soon as they are received, bids will be solicited for the foundation. Progress in construction will depend in a great measure upon the ability of contractors to get out stone and manufacture brick, but the work will be pushed with all the speed commensurate with prudence. Because no building of this character has ever been erected in the Pacific northwest, it is impossible to estimate the cost, but it may be set down as greater than that of any other edifice in this state, except the capitol building at Salem.

A HIGH COMPLIMENT.

Mrs. Capt. Wilkinson, who recently resigned the principalship of the Forest Grove Indian school, has received the following letter from the Indian office at Washington:

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS, WASHINGTON, March 13 1883.

Mrs. Gertrude R. Wilkinson, Portland, Oregon—MADAM: I am in receipt of your communication of the 22d ult. resigning your position as principal of the Forest Grove Training School. Under the circumstances I feel it necessary to accept your resignation and I have this day instructed Superintendent Minthorne that it shall take effect April 1.

I need not assure you that I accept your resignation with very deep regret. I am fully aware of how much the success of the Forest Grove school has been due to your wise and warm hearted and self sacrificing devotion to its interests. If the school does not suffer by your withdrawal, it will be because you and your husband have laid so deeply and thoroughly the foundation of Christianity, that its progress at Forest Grove no longer depends on the labors of any one person. I hope, with you, that this may prove to be the case.

You will be gratified to know that Inspector Gardiner gave his unqualified approval to the conduct of the school as he found it under your charge. With renewed assurance of my esteem and confidence, Yours respectfully,

H. PRICE, Commissioner.

Nature, bless her heart, once a year makes a present of a new suit to our mountains, trees and vales, and, as you know, the color is always green. We suppose that's the reason that Woods the hatter comes out this season with a green straw hat, which is going to be the hat of the season. For getting up something new in his line, Woods the hatter has no equal.

A CROWDED PENITENTIARY.

Interesting Items Gathered in an Interview with Warden Collins of Salem—New Cells Ordered—What Notably Prisoners from Portland are Doing.

George Collins, warden of the Oregon state penitentiary at Salem, who came down to Portland last Wednesday, was met yesterday by an OREGONIAN reporter and duly interviewed. Quite a number of interesting items were obtained concerning both the institution itself and some of the prisoners now confined therein.

"What is the condition of things at the penitentiary, Mr. Collins?" began the reporter, after the first greetings were over.

"Well, we are crowded, 'jammed full,'" answered the jovial warden. "When I came away there were one hundred and ninety-nine convicts within the walls, and more expected every minute. Of course, we'll take them all in, for we can't help ourselves, but the Lord only knows where we'll put them, I don't. I wonder if you folks here in Multnomah county will never stop sending us prisoners. The people up our way are getting the idea that it's pretty wicked down here and you'd better stop for your own sake, if you won't for mine."

"What arrangements are you making for the reception of more prisoners, in case the flood of criminals you seem to expect should come?"

"Before I came away I made several changes among the men, so as to make accommodations for another one or two, in case it should be necessary. There are now twenty-one in the hospital, and in the front part of the house I have got six lunatics, and even this does not relieve the crowded cells enough. When I get back Carrie Bradley will have to give up the suit of rooms that she has been occupying, and get along with much narrower quarters until other arrangements can be made."

"By the way, how is Carrie bearing up under her imprisonment?"

"She is not very well. She has been quite sick for some time past, and does not seem to get any better. It has not yet been a year since she was sent up for the murder of J. N. Brown, and at the rate she has changed during that time, she will never live to complete the other eleven years of her term."

"Do you not propose doing something to furnish further permanent accommodations for prisoners?"

"Yes; that is my principal object in coming to Portland. I have just ordered 22 cells, or iron tanks, to be made at once. They will be nine feet long, seven feet high and six feet wide, made of the best three-eighths inch boiler iron, riveted through-out. They will be solid and can be tipped or rolled over without the least damage or trouble. In each one will be a large, iron-grated door, the only opening, except a hole four inches in diameter, near the top of the opposite side for ventilation."

"What is Van Damme, the East Portlander who attempted to kill his wife, doing up at your country residence?"

"Oh he's getting along first-rate, working in the garden, and a right smart workman he is, too."

"How is Murphy, the forger?"

"First rate, although he is always complaining of rheumatism. Nothing else ever ails him. He's too sharp for that and don't let the doctors fool around him with their drugs."

"What is he doing?"

"Learning a trade in the foundry. He is very quick to pick up the little points that go to make a good workman and will soon be a first-class moulder."

SALEM NEWS.

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT.]

SALEM, April 26.

Hon. G. W. Gray is fitting up the Bennett House to meet the wants of some of the many families who come hither as tenants.

A. B. Crossman has received his commission as postmaster of this city and will assume his official duties on Tuesday next.

W. C. King, grand lecturer of the I. O. G. T., will deliver a lecture at the Congregational church in this city, to-morrow (Friday) evening.

Prof. T. C. Jory, of the class of '77, has contributed $1000 towards endowing an alumni chair of mathematics in the Willamette University.

The Philodorians and Philodosians, brother and sister literary societies of the Willamette University, have in contemplation the adoption of a society badge.

Misses Clara Earhart, Lena Knight and Nellie Boise of this city are copying and enlarging portraits in crayon from photographs, and give fair promise of soon becoming first-class portrait artists.

An "olde folkes concert" will be given at Reed's opera house on the evening of Friday, May 11, 1883, under the auspices of the Willamette University. It promises to be something unique and out of the usual line.

The old Institute bell, which in years long since gone called to their studies, in this city, some of the now brightest minds on the northwest coast, has found a resting place in the museum of the Willamette University.

A valuable carriage horse, the property of W. F. Boothby, ran away yesterday, and following the railway switch from the town up fell into a cattle guard near the Willamette University, breaking her leg and necessitating her being shot. The buggy was also badly demoralized.

The Alka-Hesperian literary society have leased a hall in the Adolph block for a term of years, placed there in a two hundred dollar carpet, sent to Port and for chandeliers and propose to step to the front as the leader of literary societies in this state. They are prosperous and enthusiastic.

His excellency, the governor, has appointed the following notaries public: J. M. Patterson and Leo Willis of Salem; D. B. Bishop, Jr., of Pendleton; B. H. Simpson, Heliz; W. W. Carthcart, Cottage Grove; and W. H. McManus of Fort Klamath. Commissioners for Oregon: D. P. Ballard, Olympia, W. T.; Hon. Thomas H. Brents, Walla Walla, W. T.; J. Luther Bright, 119 Broadway and Joseph B. Braman, of 115 Broadway, New York.

The secretary of the Firemen's Association of Oregon having received permission from a majority of the members of the board of directors, announces the change of the date of the next meeting, to be held in this city, from June 15 and 16 to Wednesday and Thursday, June 13 and 14. Visiting firemen will please govern themselves accordingly. Salem has already pledged $1,000 toward the prizes and defraying the expenses of the state firemen's tournament, to be held at the same time.

The Philodorians of the Willamette University have elected the following officers for the ensuing term: Pres., H. M. Waltz; Vice Pres., W. C. Hawley; Sec., L. F. Conn; Ass't Sec., J. B. Starr; Treas., G. D. Dimick; Censor, J. W. Menzies; Lib., T. L. Stewart; Sergeant-at-Arms, S. W. Holmes. Of the Philodosians: Pres., Emma Crawford; Vice Pres., Minnie Wade; Sec., Minnie Vroom; Treas., Fannie Musgrove; Censor, Dora Akers; Sergeant-at-arms, Abbie Mills; Custodian, Annie Briggs.

THE EAST SIDE.

OCCURRING DEATHS.

A few months since a woman named Elkins died of scarlet fever at her residence, near Hanson's addition, leaving a husband and a large family of children. Shortly thereafter Mrs. Arnold, a daughter of deceased, went to live at the house together with her husband, in order to take care of the children. The house consists of one room, and not a large one at that, and was now occupied by about ten persons in all. The result is not difficult to guess. Mr. Arnold was buried yesterday, having died of the measles, and the remainder of the family are more or less affected with the same disease and an addition to the death list may be looked for at any time.

VAMOOSED.

Mr. Forney, the boarding house keeper on J street, between Third and Fourth, suddenly departed from the city yesterday, leaving sundry creditors to mourn. The owner of the house, however, saved a trifle of $55 by garnisheeing money due on two stoves, which the delinquent had sold to W. R. Cordon.

HOLLADAY-AVENUE BRIDGE.

The railroad company is about completing the Holladay-avenue bridge, and thus, after much delay, fulfilling their agreement with the city. The bridge is a good one, but the surface is perfectly flat. It will be of little service, however, till the avenue—the approach thereto—is improved. This road was evidently planked at some early period, but is now in the last stages of decomposition.

THE BASE LINE ROAD.

Four thousand dollars of the estimated $5500 necessary for the planking of the Base Line road, between East Portland and Mount Tabor has been subscribed. Mr. Emmery, road supervisor, agrees to undertake the necessary grading as soon as the balance is subscribed. Inasmuch as the value of the proposed improvement is merely estimated, it might be as well to receive bids for the same, that the cost may be ascertained to a certainty. It would doubtless be more satisfactory to the subscribers.

NOTES.

The fine weather has had a magical effect on building and street improvements.

The driving of fender piles at the Morrison ferry landing was completed yesterday.

Rev. John A. Gray will tell "how to Laugh and Grow Fat," at the Baptist church this evening.

A. L. Kies returned to the city after an absence of four months. He has been to the Sandwich Islands, and he looks like it.

The Kenworthy houses on the Park are fast verging toward completion under the able superintendence of the contractors and builders, McQuade & Gwinn.

PANAMA NEWS.

Canal Work Estimates Wrong—The Situation in Chile—Eruption vs Fire on the Isthmus

PANAMA April 17 — [Special]—The *Star and Herald* referring to the statements in American papers that Spaulding of Lockport, N Y has closed a contract with the Panama Canal Co to dredge and construct seven miles of the Panama canal for $1,000,000 a mile the contract aggregating $7,000,000 says: We do not know what section of work Spaulding has been so fortunate as to obtain as little information is furnished here upon such subjects and this contract has not been mentioned in canal circles. We know of no section however which can be cut at the rate of $1,000,000 per mile. If there were such sections the world would doubtless have heard of them long ago. The whole thing is the usual form of propaganda in canal interests with which its advocates have interested and sometimes

AMUSED THE PUBLIC

Those familiar with the enterprise say the figures of the international convention upon which the original estimate of the cost of constructing the canal were based is all wrong. The cost of excavating earth above water, for instance, was fixed by the commission at 2½ francs per cubic metre, a price no contractor has yet been able to touch. Double that figure would be nearer the mark where machinery is not employed. We believe excavations at Monkey Hill have cost much beyond the original figure of moving the earth and different sections along the line where the preparatory work has been done have fallen under in the same way. As the facts show, the figures established by the commission are not a safeguard for contractors to follow nor reliable as furnishing stockholders information in forming a basis on which to estimate the cost of the undertaking

CHILEAN NEWS

Chile advices of the 4th of April represent a change of feeling in Chili toward Bolivia since the strong adhesion of the last-named republic to her treaty of alliance with Peru is made evident by a decree issued by the government at Santiago last month, ordering that after June 1 the custom house of Arica shall impose additional burdens on commerce by a duty on silver, formerly of free export. Pacific Coast Products for the East.

[Boston Advertiser.]

The Pacific states bid fair to derive as much profit from fruit and kitchen vegetables as from their gold and silver. The Oregon product is pronounced superior to that of California, and suffers less from occasional drought than does California, where artificial irrigation on a large scale is more generally employed than elsewhere in this country. And even Boston is likely to feel the effects of all this immense activity. Los Angeles sends a hundred weight of green fruit to the Atlantic ports for $2 27, vegetables for $1 50, and oranges or lemons for $1 75. What tells against the sale of Pacific vegetables in the New England and middle states is the time lost in the transportation of perishable goods. On that point Norfolk and Florida seem to have the advantage over Los Angeles and Portland. But the case is different with preserved fruit, canned vegetables and dairy products. The time is almost in sight when the Pacific states will compete with the entire country in all these matters, and greatly to the advantage of consumers everywhere.

The World's Champion Checker Player

A man with a gripsack and large cane dressed like a farmer, and looking as if he had just blown in from the backwoods came to town says the Elmira *Free Press*. The stranger was James Wyllie, the champion checker player of the world. Mr Wyllie is a Scotchman, and has beaten the best players the world has produced, and now he is regarded by all as the champion. He is about 60 years of age. His hair is white and, like Horace Greeley, he wears a beard under his chin. His deafness makes it impossible to carry on a conversation with him. He sits quietly not taking his eyes off the board, and taking no notice of those about him or anything except the game. He wears glasses, and has an intelligent and kindly face and good head. He has done nothing else but play checkers ever since he was 15 years of age. His game cannot be beaten. He looks away into a game and before an ordinary opponent has commenced he has won the game. He makes a good living by playing, as there are plenty of enthusiasts who willingly give 25 cents to play with him, and plenty more who will give that amount to see him play. He lives in Scotland, and has been in this country about six months, although this is not his first visit.

The Universal peace union and the Pennsylvania peace society will send delegates to the Irish national convention, to be held upon conclusion of the session of the land league.

AFTERNOON DISPATCHES.

Murder and Suicide

PITTSBURGH April 25.—A Lewisburg (Ohio) special says that a place near there known as "Castle of the World" was the scene this morning of a terrible double tragedy, a man named James DeLong killing a woman named Griswold and then committing suicide. It appears that DeLong had asked Mrs Griswold to marry him, but she positively refused and he determined that no one should marry her. So this morning he called at the residence of William Allen, where his victim was employed, and asked to see her. As soon as she appeared he opened fire on her with a revolver which he had in his hand. The first two shots took effect in her head and the third in her side. DeLong then placed the muzzle of the revolver to his temple and fired, falling dead within three feet of the prostrate body of Mrs Griswold.

JACKSON Miss April 26.—News has reached here that three whites, two negroes and two Indian children have been killed four miles from Morton in Rankin county and other places otherwise injured by the cyclone.

More of the Cyclone

WEST POINT April 25. By a cyclone near Tupelo, in Clay county, Lewis A. Ferguson and Mr Hereford's houses were blown down, killing the daughter of Mr Fisher was killed. In Lowndes Clay county a parish house was blown down. Hohn and Linden are reported as completely destroyed. Two churches were demolished and several persons killed at Abbott.

JACKSON Miss April 25.—A cyclone struck the town of Harrisville, Simpson county, killing ten persons. Seven were killed near Morton, names unknown.

Bold Burglars

RICHMOND Va April 25. Robberies of residences have been frequent of late. On Tuesday in open daylight Police Captain J. H. Herbert's residence was entered and robbed and twice at night it has been stoned. This afternoon between [illegible] and [illegible] P M while a policeman was on guard in the parlor a burglar entered the garret, seized a daughter, aged 15, and tied and gagged her. Having accidentally knocked a sash out of a window the burglar roused the house but made a successful escape.

FINANCE AND COMMERCE.

THURSDAY April 26

The weather for the past few days has been warm and pleasant, a quite agreeable and welcome change from the cold heavy showers of nearly a month. No frost has appeared as yet and fruit will soon be far enough advanced to withstand it should it hold off for a short time. Crops are reported as doing well in all sections and there appears no good reason at this time why they should not continue to do well. Country roads are improving in condition which will enable farmers to market what produce they may have on hand.

Freights quiet with no transactions in sp[illegible] for some weeks. There is in port two iron and six wooden vessels, of which four would be found to be immediately available. Rates are quoted in absence of business and difference in views between ships and shippers. At the current rates ships will have difficulty in securing cargoes. Probably one ship would find business if the owner would [illegible] rates. The salmon run is light, probably a cargo would not be picked up in a month. Flour and wheat is in light supply at present for shipping purposes. In futures business has fallen off and operators are unwilling to pay the asking rate. Ships ask about 65s but would take less. At 65s the margin for speculation is small.

Wheat dull but a rather improved feeling. Millers are the only purchasers and they secure little owing to tenacity of holders. The ship Saranac for the United Kingdom has cargo well on board most of wheat. Warehouses here are pretty well cleaned out and the surplus is undeniably insignificant. Foreign markets early in the week showed considerable tone and a good proportion of the large number of cargoes offering were disposed of. The demand has slacked off and markets are easier. Arrivals at ports of call have been large for three weeks past and will continue free for some time yet. Without an increased demand there is no hope of better prices but rather a decline will come. At this time the situation abroad does not particularly affect us but does California from which state there is yet considerable to be shipped.

Flour is quiet but steady although the local demand does not ask for the receipts. Shipping to California continues in order to keep stocks down here.

Oats show more strength without advancing. Sales of late have been comparatively large at 68@70 cents the latter figure being now obtainable for good lots.

Mill stuff firm with local grinding in small receipt. Importations from California are necessary to supply the demand.

Potatoes have been in light receipt and holders have obtained an advance now asking 65 cents. Probably the rise will have the effect of increasing receipts.

Onions show a wide range owing to difference in quality of the lots offering. To fill orders houses are obliged to pay well up while a shipment to this market would not bring near the price asked by holders. The San Francisco market is again higher.

Dried fruits are firm but no advance is looked for at present although peaches may appreciate as they are quite scarce.

Meats are firm with prospect of an advance owing to scant stocks. A large consignment will soon be on hand which may temporarily check the advance that seems certain.

No Oregon butter of consequence is offered and trade is mostly confined to California.

Chickens have ruled high being in scant supply and good demand.

Eggs firm and in light receipt. Stocks are low.

Hides in fair business at steady prices. Tallow has ruled higher but is somewhat easier at the close.

Hay firm and high. Baled is becoming scarce and loose sells from wagons at $27@29 per ton.

Nothing doing as yet in wool, none of the new clip being yet on the market. The outlook is discouraging but is confidently expected to show improvement when business opens in earnest.

The salmon run is very light to date and the pack so far is almost nothing. Foreign markets are reported well stocked and a slow demand it looked for. A sale of 500 cases is reported from San Francisco on spot at $1 27½.

The merchandise markets are in good business. Sugar in light stock and firm. Coffee rice and teas are firm. Bags steady but grain show some degree of weakness.

Receipts past twenty-four hours include 2101 bbls flour, 171 ctls oats, 3500 lbs millstuff, 28 bls hay, 2031 lb hides, 1 bx butter, 7900 doz eggs, 131 bxs fruit, 13 2 bbls lime. Also 1060 bbls flour, 15 000 lb's wool, 1 75 lbs hides from the eastern section.

SHIPPING NOTES

The Gen. Miles brought 6800 feet of lumber from Gray's harbor.

The late interruption in the eastern wires has caused shipping cablegrams to be received here in a rather chaotic state and a few slight errors may have crept into our report.

The Gen. Miles sails for Gray's harbor May 6.

The Saranac will probably go down river to-morrow.

The Ona brings from Tillamook 3 bls hides, 1 bl furs, 5 sks oysters, 50 6 lath and 40,000 feet lumber.

MEMORANDA

Ship Indiana, P. H. M. An Internal Revenue Officer Saved.

PROVIDENCE Aug 1 1882.

Editor of *Boston Herald*—

DEAR SIR: During my term of service in the Internal Revenue Department of the United States, at the time my office was in this city, I was afflicted with a severe attack of Kidney Disease and at times suffered intensely. I received the medical advice of some of our best physicians for a long time without being benefited by their prescriptions. Being discouraged by the failure of the doctors to help me and being urged to use Hunt's Remedy by a friend who had tested its merits, although reluctant to try a patent medicine, I was finally induced to try the Remedy and procured two bottles of it, and commenced taking it faithfully according to directions.

Before I had taken it three days the excruciating pains in my back had disappeared and before I had used two bottles I was entirely cured. Whenever from over-exertion or a violent cold the pains in my kidneys return a few doses of Hunt's Remedy quickly effects a cure.

Before closing I beg to mention the remarkable cure of a friend of mine in New York City to whom I recommended this valuable medicine. He was suffering severely from an attack which was pronounced by his physician a decided case of Bright's Disease of the Kidneys. I obtained two bottles of Hunt's Remedy for him and he commenced taking it and began to improve at once and was speedily restored to health and he attributes the saving of his life under the blessing of a merciful Providence to Hunt's Remedy.

Another friend of mine in New York to whom I recommended Hunt's Remedy was suffering severely from Kidney disease and was entirely cured of it after using this wonderful medicine only a short period.

Feeling deeply grateful for the great benefits experienced by my friends and myself from the use of Hunt's Remedy, I feel it to be my duty as well as a great privilege to furnish you this voluntary and unsolicited statement of facts for the information of your large number of readers, many of whom are undoubtedly suffering from this widely spreading scourge and I believe that it is the best medicine now known, and that it will cure all cases of Kidney diseases that can be cured.

I shall be pleased to confer with any one who may desire an interview regarding the statements herein contained. Truly yours,

RICHMOND HENSHAW
